

### **From Craig's Desk .....**

The year certainly seems to be flying by and it is very hard to believe that it is August already. We have settled into our new workshop well and are enjoying having the larger space.

Along with our bigger space we have also expanded our team to 18 people.

We have a permanent team onsite at the Newmarket Viaduct Site and are pleased to be working alongside the Northern Gateway Alliance (who completed the ALPURT extension) who are now undertaking this project. The job is not without its own unique challenges and I am kept very busy running this job as well as seeing to the needs of our existing local clients.

We are thankful to have a great team behind us and have most recently welcomed BRETT SULLIVAN and ROGER JOHNSON to the team. They both have their own distinctive talents which compliment our existing team nicely. Brett is a real Jack of all Trades and can turn his hand to most things we do and Roger is a Stainless Steel Specialist. To see our complete team and how we can help you take a look at the great new webpage that the team from Brighter Design completed for us. We are very proud of this showcase of our team and work we have completed.

**CRAIG**

## **OUR NEW LOOK**

As Onsite Engineering continues to grow we have taken some time to update at the "look" of our business.

After taking some time to define our business in a new way (a very interesting process), we undertook in conjunction with local business 'Brighter Design' we have come up with a new brand.

You will be seeing this new look rolled out from the beginning of August and we would like to assure you that Craig and the team from Onsite are still the same great team with the same great service.

Take a look at our new website [www.onsiteengineering.co.nz](http://www.onsiteengineering.co.nz) for more information on the work we do or give us a call to discuss your next project.

## **BE IN TO WIN!!!!!!**

As a way of saying  
'thank you' for choosing  
Onsite Engineering

**ALL JOBS (big or small) completed  
during AUGUST & SEPTEMBER  
will go into the WEEKLY DRAW to win  
\$150 Fuel Voucher.**

What better chance to get your job  
completed & possibly win with us. For  
more information give us a call  
on 425 9403 & we will be happy to help

## **Changes at Onsite**

Most of you will know Mike Heaven, who has been with Onsite Engineering for the past two years. Recently circumstances have meant that Mike has moved into the office, behind the desk & is also running our workshop. This move has enabled Craig to be more flexible with his leadership of our team & to be more available to visit sites & liaise with customers. It has also allowed Daryl to become more 'hands on'.

We have asked Mike to step into this position to use his wealth of experience and knowledge, gained over the 26 years he has been in the industry. Mike works closely alongside Craig to achieve the best solution for our customers ... and if he can't help you then Craig is sure to be able to come up with a solution for you.

Mike can be contacted through our office or by emailing [info@onsiteengineering.co.nz](mailto:info@onsiteengineering.co.nz)

..... & Craig is available on his mobile 021 519 670

### **Something to think about ... What is your Vision?**

*"I cannot overstate the importance of having a vision. It is what you cling to, for dear life, when things are difficult. A vision is intended to inspire people. A vision is the highest point of achievement you can envisage for yourself and your team"*
